Response to Reviewer 1 – Round 3 Comments

1. Summary

We sincerely appreciate the time you've taken to review this manuscript. Below, you'll find detailed responses along with the corresponding revisions and highlighted corrections.

2. Point-by-point response to Comments and Suggestions for Authors

Comments 1: Line 481. The authors use a bibliographic reference to indicate that other researchers have explained the changes that occur when using a non-commercial substrate. However, it is crucial that they provide a technical explanation of what occurred, rather than just referencing it. It is necessary to technically elucidate the results of this research, building upon previous findings. The references cited in the text are not found in the file provided. Please verify this.

Response 1: We appreciate the feedback provided. In response, we have included a detailed technical explanation of the effects observed when utilizing a non-commercial substrate, as outlined in Lines 493 to 499. Furthermore, we have verified that all references cited in the text are accurately included in the provided file. Additionally, we have conducted a comprehensive review of the document's wording.
