REVIEWER 4

In title, please give the full name of CFRP.

A:

We have applied the modification.

In abstract, please provide full names of PCT and PPT when they appear for the first time.

A:

We have applied it as suggested.

Please illustrate the main innovation of this research. Why was ICA selected for processing thermographic data? Why not machine learning-based methods?

A:

The new section “ICA and ICT” tries to answer these questions.

The main research challenges in this area should be included in this review.

A:

We did it in the introduction in this manuscript.

Future research should be added in conclusion part.

A:

We added it.
