Dear Editor,

The authors would like to thank the reviewer for the constructive suggestions and comments. According to the suggestions and comments, we revised the paper carefully. The typos and language mistakes are also corrected. The details of the revisions in the manuscript are explained point by point as follows:

1. In line 41, 44, 51, 80, the unnecessary sentence "Error! Reference source not found" need to be removed from this paper. I believe that this sentence is type error.

We checked the revision of our manuscript (Word version) and found the problem which reviewer pointed out are caused by hyperlinks. We have removed all references hyperlinks in the whole text.

2. The authors have to add the reference numbers in []. For an example, in line 57~58, the sentence needs to be revised to "~ random access to some extent [7]".

Thank you for your suggestion on this issue. We checked our manuscript (Word version) and have added the reference numbers in ‘[ ]’.

3. We have revised the paper thoroughly on aspect of English language according to the comments. There are many minor revisions to correct language. Major revisions to make it more readable for the readers are as follows:

1) We have already replaced “tranmissions” with “transmissions”, referring to LINE 55.
2) We have already replaced “rate” with “ratio”, referring to LINE 108, 154.
3) We have already replaced “epacket/slot” with “packet/slot”, referring to LINE 315.
