Respected reviewer, thank you very much for your contribution to the improvement of the manuscript. We have implemented all your suggestions, the changes made are detailed below:

suggestion	answer
(1) The paragraph from lines 127-131 is almost identical with the one from lines 135-139 (from the PDF document).	the duplicity has been eliminated and the wording has been improved to present the research questions located in lines (109-117).
(2) The legend (years) is missing from several figures: 5, 6, 7 (in this figure the legend is only partially present), 8, 11, 12. Kindly asking the authors for consistency throughout the manuscript.	The figures have been unified and keep the same format.
