Response to the Editor and Reviewers' comments

Ms. Ref. No.: cells-1591705

Title: „The role of mitochondria in human fertility and early embryo development: what can we learn for clinical application of assessing and improving mitochondrial DNA?"

Journal: Cells

General comment:

We would like to thank the Co-Editors-in-Chief and Reviewers for their comments and insights. We appreciate your input and have revised the manuscript in line with your suggestions. We hope that the revised version will meet with your approval. Below are our responses to all the Reviewers' comments.

All changes are marked up using the "Track Changes" function.

Answers to the Reviewer's Comments:

Reviewer's Comment: It is recommended to expand section "Impact of mitochondrial insufficiency on fertility."

Authors' Response: Thank you for this suggestion. To meet the Reviewers expectations we have expanded the section titled "Impact of mitochondrial insufficiency on fertility".

Reviewer's Comment: It is recommended to include a list of abbreviations, used in the article.

Authors' Response: Thank you very much for this remark. We have included an alphabetical-ordered list of abbreviations.
