Comment number	Comment	Authors' responses
1	The potential uncertainties of the study and its limitations should be discussed in Section Discussion, instead of Conclusion.	Thank you for the kind comment. The authors discussed the issue and revised the manuscript. The specific part was removed from the conclusion section and added to the discussion part in lines 201−204. 206, 221−222, 231−234, and 247−249.
2	Line 29, the expression "autonomous levels" is unprofessional, it should be "level of autonomy".	Appreciate a great comment. The authors revised the specific part in line 29.
3	The number of references related to MASS is few, and the newest MASS reference should be considered to add.	Thank you for the precious comment. More newest MASS references were added in lines 29−31, 33.
