The researcher has covered an important topic showing interesting results for the readers. Although the article is good enough, but one or two points worth mentioning for the clarity of readers.

1. In the title of the article, the word should be “technological advancement instead of technological advance”
2. How this article is different from the existing studies available
3. Justification of using ECM
4. The discussion part should be a detailed one for readers to justify the importance of knowledge stock for advancement and economic growth
