Authors' response to Reviewer 3

Reviewer 3

Comments and Suggestions for Authors

The authors conducted an elaborated analysis of the nitration of THAP by different nitrating agents. This paper is well written and organized. The work is very thorough and complete with the supplementary materials.

This is a very nice paper and should be published with very minor edits, see below.

1 The fonts in Figure 2 are too small.

Our response:

Dear Reviewer 3, we highly appreciate your appraisal comment and high opinion of our research. We have modified the font in Figure 2, as you kindly advised.

Yours,

Corresponding author Ms. Vera S. Glukhacheva, Dr. (Chem.), Lab Chief

Laboratory for High-Energy Compounds Synthesis, Institute for Problems of Chemical and Energetic Technologies, Siberian Branch of the Russian Academy of Sciences (IPCET SB RAS), Biysk city, Siberia
