

Figure 7-11 and the corresponding description can be found in the Discussion section. But this is the actual material and it should be moved to the Results. This will improve the perception of the article.

We have moved the following figures and the part corresponding description from the Discussion section to the Results section:

-Figure. "Water Temperature on transect..."

-Figure. "Long-term measurements by a bottom mooring probe WQM at st. 8 in 2014."

-Figure. "Vertical distribution of DO and salinity before (20 Feb 2016) and after (27 Feb 2016) snowfall at St. 5."

-Table. Ice thickness (cm)

2. Check the spelling in the Reference. There are errors, for example 20. Sakshaug, E
