2. Point-by-point response to Comments and Suggestions for Authors

Comments 1: The manuscript titled "Spatio-temporal Variations in Ecological Quality and its Response to Topography and Road Network based on GEE: Taking the Minjiang River Basin as a Case" submitted to Land is an important piece of work by the Authors. I appreciate the opportunity to evaluate this research and provide feedback. Overall, the paper presents valuable contributions to the field with high spatiotemporal data processing and appropriate analysis. The manuscript can be accepted as it is.

Response 1: Thank you very much for your valuable comment.
