1. Comment 1, The abbreviation "viz." is frequently mentioned in the article. I recommend utilizing alternative conjunctions in place of the current conjunction.

>>> Suggestion incorporated. Please see line 127, 149, 239.

2. Comment 2, Additionally, "lactation period" should be substituted for "parity," which is utilized extensively in the article.

>>> In this study, the parity was used to describe different lactations. We hesitate to change the term as it has been widely used in the scientific community.

3. Comment 3, line 134, It is incorrect to include references as "reference 4" within the midst of a phrase. The sentence should be rephrased by incorporating the name of the author.

>>> Suggestion incorporated. Please see line 152.
