Response to referee I regarding the manuscript “Time preferences between individuals and groups in the transition from hunter-gatherer to industrial societies” submitted to Sustainability

Referee I’s comments and our responses

1. Referee comment: I enjoyed reading the paper. It addresses a very relevant topic. The experiment is properly designed, and the paper in general is clearly written.

   Our response: Thank you very much for your positive comment and the time spent with our manuscript. We also think that this topic is worthy of being concerned, and we did our best to design our experiment and to write our paper.
