Reference animals-537035: CLINICAL PRACTICE GUIDELINES: LEGAL IMPLICATION IN VETERINARY MEDICINE

Dear Reviewer,

Thank you for your suggestions. We corrected the manuscript accordingly as follows:

- Line 54: delete underscore:
  We have deleted it.

- I suggest that in the paragraph 3 “Overview of Clinical Practice Guidelines (CPGs)” you could add (also in a table) a list of the most common Guidelines in Veterinary Medicine together with the references (for example, Guidelines for feline and canine vaccinations produced by the AVMA, AAHA, and AAFP; AAFP-AAHA Feline Life Stage Guidelines; AAFP 2008 Senior Care Guidelines; AAFP and ISFM Feline-Friendly Handling Guidelines; AAHA Anesthesia Guidelines for Dogs and Cats; AAHA Canine Life Stage Guidelines; ACVIM Consensus Statement: Guidelines for the Diagnosis and Management of Canine Chronic Valvular Disease; AAHA Nutritional Assessment Guidelines for Dogs and Cats; Antimicrobial Use Guidelines for Treatment of Urinary Tract Disease in Dogs and Cats; AVMA Guidelines for the Euthanasia of Animal; ACVIM Consensus Statement: Enteropathogenic Bacteria in Dogs and Cats: Diagnosis, Epidemiology, Treatment, and Control, etc)
  In the revised version we have added a table as has been suggested

- Check the references: not all of these are reported according to the guidelines of the Journal.
  We checked the reference and modified it in according to the guidelines of the Journal.

Best regards,

Prof. Annamaria Passantino
